Three Day Guarantee

Take your puppy to the veterinarian before three days have passed to confirm we have given you a healthy puppy. This is **required** for the guarantee to be acceptable. You can not request the guarantee if the puppy in your care does not get a veterinary checkup before three days after pickup.

If the puppy comes out positive for either worms or any other stomach parasites contact us and we will pay for the treatment. To prove you are eligible for the three day guarantee we ask for the receipt from the veterinarian you took your puppy.
